

NAVIGATING THE PSORIASIS STORM

FRIDAY, JUNE 12, 2015

17:00 – 19:00, West 118 – 120

Vancouver Convention Centre, Vancouver, British Columbia

LEARNING OBJECTIVES

- Describe the hard-wired impact of psoriasis on peoples' lives
- Describe inflammatory pathways in psoriasis pathogenesis
- Discuss the emerging targeted therapeutic approaches in psoriasis

SUMMARY

This symposium will investigate emerging therapies that target the inflammatory nature of psoriasis. Three engaging speakers will help navigate the psoriasis storm detailing inflammatory signaling and targeted therapeutic approaches.

Professor Griffiths reveals the hard-wired impact psoriasis has on peoples' lives. **Dr. Krueger** ventures into the eye of the storm by reviewing the biological basis of inflammation in psoriasis pathogenesis. **Dr. Papp** weathers the storm by reviewing the latest on targeted therapeutic approaches and providing clinical perspectives on recent developments.

FACULTY

Kim Papp, MD, PhD, FRCP (Chair)
Proby Medical Research
Waterloo, Ontario, Canada

Christopher Griffiths, MD, FRCP, FMedSci
University of Manchester
Manchester, United Kingdom

James Krueger, MD, PhD
The Rockefeller University
New York, United States

PROGRAMME

17:00 – 17:05	Welcome and Introductions	Kim Papp, MD, PhD, FRCP
17:05 – 17:35	Lifting the Clouds: Inflammation and Psychosocial Aspects of Psoriasis	Christopher Griffiths, MD, FRCP, FMedSci
17:35 – 18:05	Into the Eye of the Storm: Biological Basis of Inflammation in Psoriasis	James Krueger, MD, PhD
18:05 – 18:35	Blue Skies Ahead: Targeted Therapeutic Approaches in Psoriasis	Kim Papp, MD, PhD, FRCP
18:35 – 18:55	Questions and Interactive Panel Discussion	All Faculty
18:55 – 19:00	Closing Remarks	Kim Papp, MD, PhD, FRCP
19:00	Adjourn	

Food and beverage will be provided
