Acne scarring: from pathophysiology to prevention

Galderma Acne Satellite Symposium

DATE | 9th June 2015
TIME | 17:00 –18:30
LOCATION | Star Sapphire ABC,
Fairmont Pacific Rim Hotel

The acne satellite symposium will take place at the prestigious World Congress of Dermatology. We will be providing an interesting insight into the future treatment and management of acne thanks to a panel of internationally renowned dermatology experts discussing innovative advances.

Scientific committee:

Chair: Dr Sewon Kang, USA

Prof Brigitte Dréno, France

Dr Jerry Tan, Canada

Featuring presentations discussing:

- Profile of innate immunity differing between scar-prone and non-scar-prone acne subjects
- Modeling the relationship between primary and secondary acne lesions
- Effect of adapalene 0.1%/benzoyl peroxide 2.5% fixed-dose combination gel on atrophic acne scars
- Improvement in atrophic acne scars with topical adapalene 0.3% gel in association with the induction of procollagen I and III

To avoid disappointment, please save the date in your calendar and inform us of your interest in attending.

U.S. Healthcare Professionals are not permitted to attend this symposium due to subjects being presented.

An official satellite symposium held during the
23rd World Congress of Dermatology

With the support of Galderma.

Date of preparation: April 2015 GBURX_AC_WCD15_S_01
