Using daylight to treat actinic keratoses: an innovative approach

Galderma Actinic Keratosis Satellite Symposium

DATE | 11th June 2015
TIME | 17:00–18:30
LOCATION | West 301, Level 3,
Vancouver Convention Centre

Galderma are very pleased to invite you to the upcoming actinic keratosis symposium at the World Congress of Dermatology. We have exciting presentations planned to discuss the pioneering treatment approaches for actinic keratoses, that will be paving the way for achieving better patient outcomes.

Scientific committee:

Chair: Dr Robert Bissonnette, Canada

Chair: Prof Hans Christian Wulf, Denmark

Dr Luis Torezan, Brazil

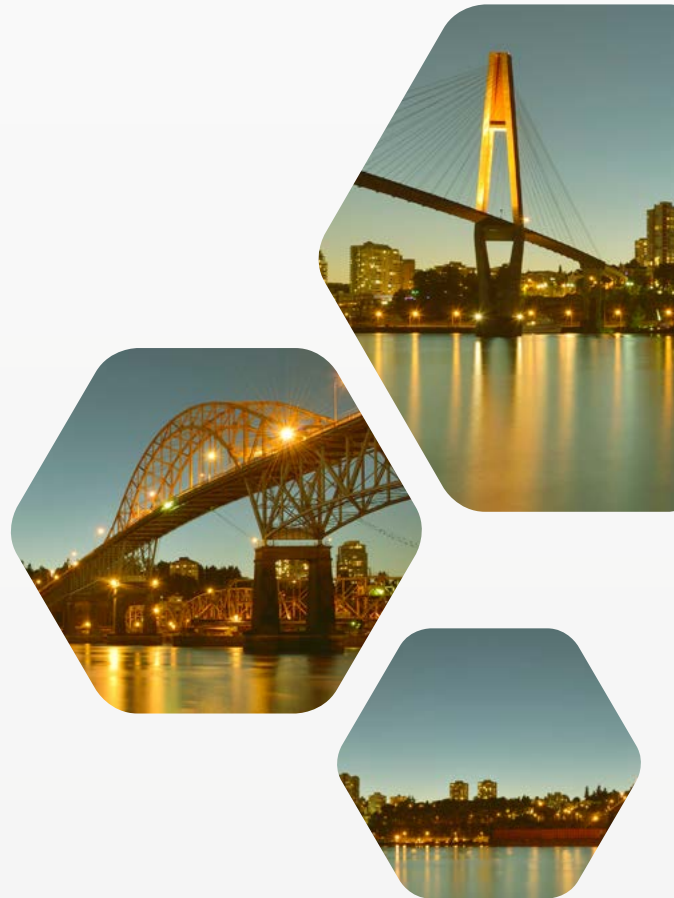

Prof Rolf Markus Szeimies, Germany

Dr Jo Ann See, Australia

Featuring presentations discussing:

- Unmet needs in actinic keratosis treatment
- Using daylight to treat actinic keratoses: an innovative approach
 - Mode of action and phase III studies
 - Real-world evidence in Latin America
 - Who, when and how to treat?

To avoid disappointment, please save the date in your calendar and inform us of your interest in attending.

An official satellite symposium held during the
23rd World Congress of Dermatology

With the support of Galderma.
