Skin health in the elderly: dermatological challenges

Galderma Therapeutic Skincare Satellite Symposium

DATE | **Wednesday 10th June 2015**
TIME | **17:00–18:30**
LOCATION | **Star Sapphire ABC,
Fairmont Pacific Rim Hotel**

We are pleased to invite you to the Galderma satellite symposium which will be taking place at the World Congress of Dermatology. We will be presenting interesting data on the high prevalence and importance of prevention and treatment of dry fragile skin in the senior population. The symposium will cover the latest research development in the pathophysiological and epidemiological management of skin conditions in the elderly population, hosted by a panel of internationally acclaimed dermatological experts.

Scientific committee:

Chair: Prof Wolfram Sterry, Germany

Chair: Dr Barbara Gilchrest, USA

Mr Mike Hodin, USA

Prof Dr Ulrike Blume Peytavi, Germany

Dr Anne Lynn Chang, USA

Featuring presentations discussing:

- Evolution of the aged population and its consequences
- Pathophysiology of the ageing skin, and dermatologic challenges
- Epidemiology of all skin conditions and diseases in the elderly population
- Dry skin in the elderly population
- Perspectives

To avoid disappointment, please save the date in your calendar and inform us of your interest in attending.

An official satellite symposium held during the
23rd World Congress of Dermatology

With the support of Galderma
and in collaboration with Galderma R&D
