

SPEAKER CONFLICT OF INTEREST DISCLOSURES

WCD 2015 requires that all individuals who make any presentation at the Congress declare their conflicts of interest in relation to their presentation(s). If there are no relevant conflicts this must also be specifically declared. The following list is a compilation of all speaker disclosures that have been received as of the time of printing. An up-to-date list of conflict of interest declarations is available for review on the Congress website and the official WCD 2015 Mobile App. All presenters must disclose their conflicts verbally and/or in writing (i.e. on a slide or a poster) at the time of the presentation. More detailed information on individual disclosures by any specific author, listed by specific type of conflict and commercial relation(s), are available for review by direct request to the WCD Congress Secretariat.

The presenter evaluation system for the Congress will include a question asking delegates whether they perceived any commercial bias on the part of any speaker for a given session.

Lowy, Doug

As part of my US government supported research at the National Cancer Institute/National Institutes of Health, I am an inventor of technology that underlies the L1-based prophylactic virus-like particle (VLP) HPV vaccine and technology that underlies an L2-based candidate prophylactic HPV vaccine. The NIH has licensed the technology for the L1 VLP vaccine to Merck, the manufacturer of Gardasil, to GlaxoSmithKline, the manufacturer of Cervarix, and to Indian Immunologicals Ltd. The L2-based vaccine technology is the subject of a cooperative research and development agreement between the NCI, Johns Hopkins University, and Shantha Biotech, and has been licensed to Shantha, PanVax, Acambis Inc, and GSK. US Federal law entitles me to a limited share of royalties the NIH receives for these technologies.
